

RECEIVED  
APR 30 2:31  
TECHNOLOGY CENTER 2800

In the Claims:

1. (Amended) An eyeglass combination comprising:  
a primary frame including a first bridge and including two sides each having a stud, and  
an auxiliary frame for disposing in front of said primary frame, said auxiliary frame  
including a second bridge and including two sides each having an extension extended rearward  
toward said primary frame and extended over said studs, said extensions each including a rear  
end having a first flange extended downward for engaging with said stud and for securing said  
auxiliary frame to said primary frame, wherein said second bridge includes an arm extended over  
said first bridge of said primary frame, said arm includes a rear end having a second flange  
extended downward for engaging with said first bridge and for securing said auxiliary frame to  
said primary frame.

Please cancel claims 5 and 7.

In claim 6, please replace "claim 5" with -claim 1-.

REMARKS

Reconsideration of the present application is respectfully requested. Claims 1-9 were pending in the application as filed. Claims 5, 7 have been canceled herein, leaving claims 1-4, 6, and 8-9 as the pending original claims.

Claim 7 has been rejected under 35 U.S.C. 102(b) as anticipated by U.S. Patent no. 5,737,054 to Chao ("Chao '054"). Claims 1-6, 8, and 9 have been rejected as unpatentable over Chao '054 in view of U.S. Patent no. 5,568,207 to Chao ("Chao '207"). Claims 1-6, 8 and 9 have been rejected as unpatentable over Chao '207 in view of Chao '054.
